

Using the client side CIRCE Bar Code Scanner (BCS) on your mobile device or tablet

1) Install the client BCS

1a) Either click on the links below

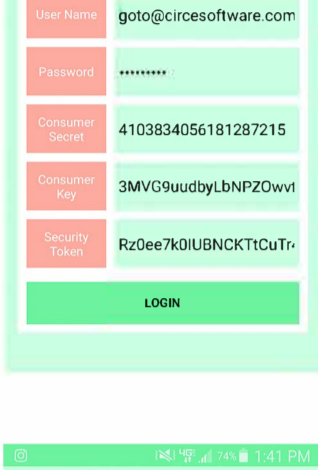

Android BCS Link:

[CLICK HERE](#) for the Android BCS App

1b) Or visit circesoftware.com/bcsdemo

The page should look like the image below:

3) Be sure to **REBOOT** your device after installation

The BCS login screen should look like this

After you scan a bar code, this screen will appear

4) Either press the "Save" or "Scan Another" button

Then see the results in Salesforce (see below)

Using the CIRCE Bar Code Scanner (BCS) Demo ORG

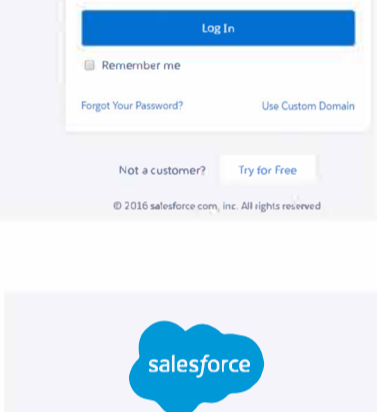

1) Log into salesforce with the following credentials:

URL: login.salesforce.com

USERNAME: goto@circesoftware.com

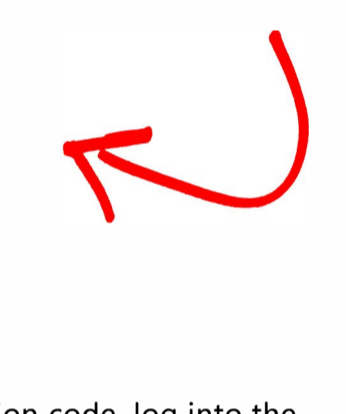

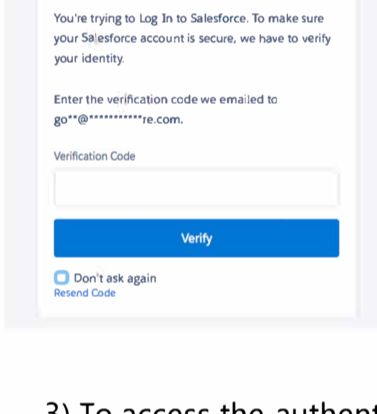

PASSWORD (case sensitive): ciRce2017

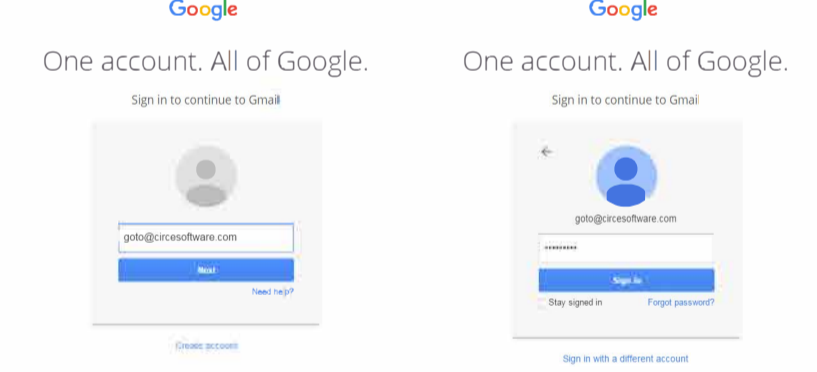

2) You will see this Authentication screen

3) To access the authentication code, log into the following Gmail account to receive the code:

USERNAME: goto@circesoftware.com
PASWORD: ciRce2017 (case sensitive)

4) Then click on the email with the date and time when you requested the authentication code

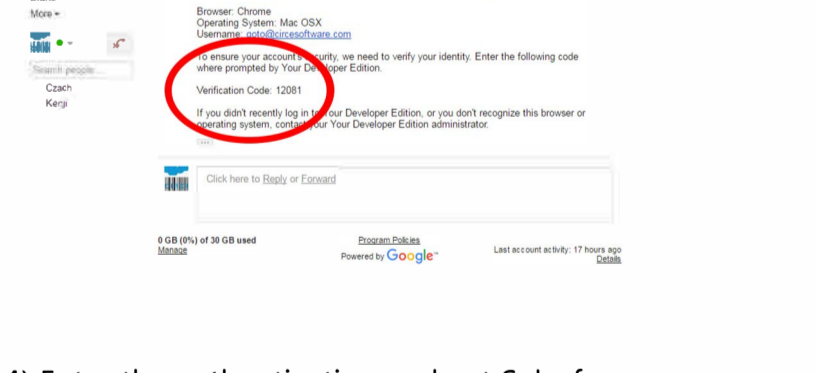

4) Take note of the authentication code

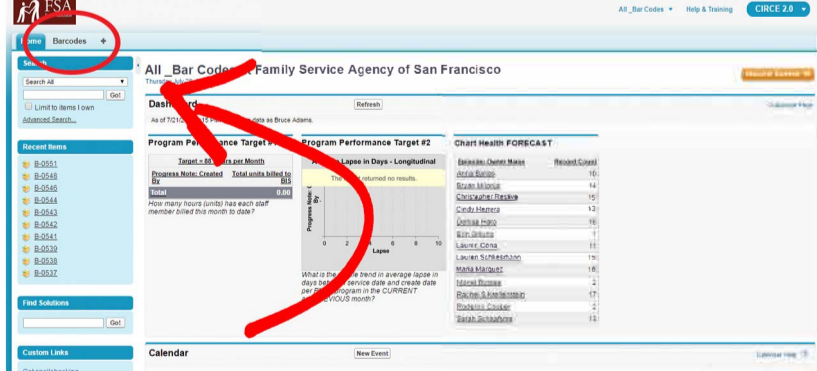

4) Enter the authentication code in Salesforce

5) Once in Salesforce, click on the tab titled "Barcodes"

6) Select "All" from the "View" option and click "Go"

7) Click on the "Created Date" column for descending order
